Using a working set limited to 2250 pages and 838 pages of data storage (excluding image)

Total number object records read (both passes): 1772
 of which 784 were in libraries and 41 were DEBUG data records containing 8434 bytes

Number of modules extracted explicitly = 16
 with 5 extracted to resolve undefined symbols

5 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
